Why Choose Iron World's Slide Gates

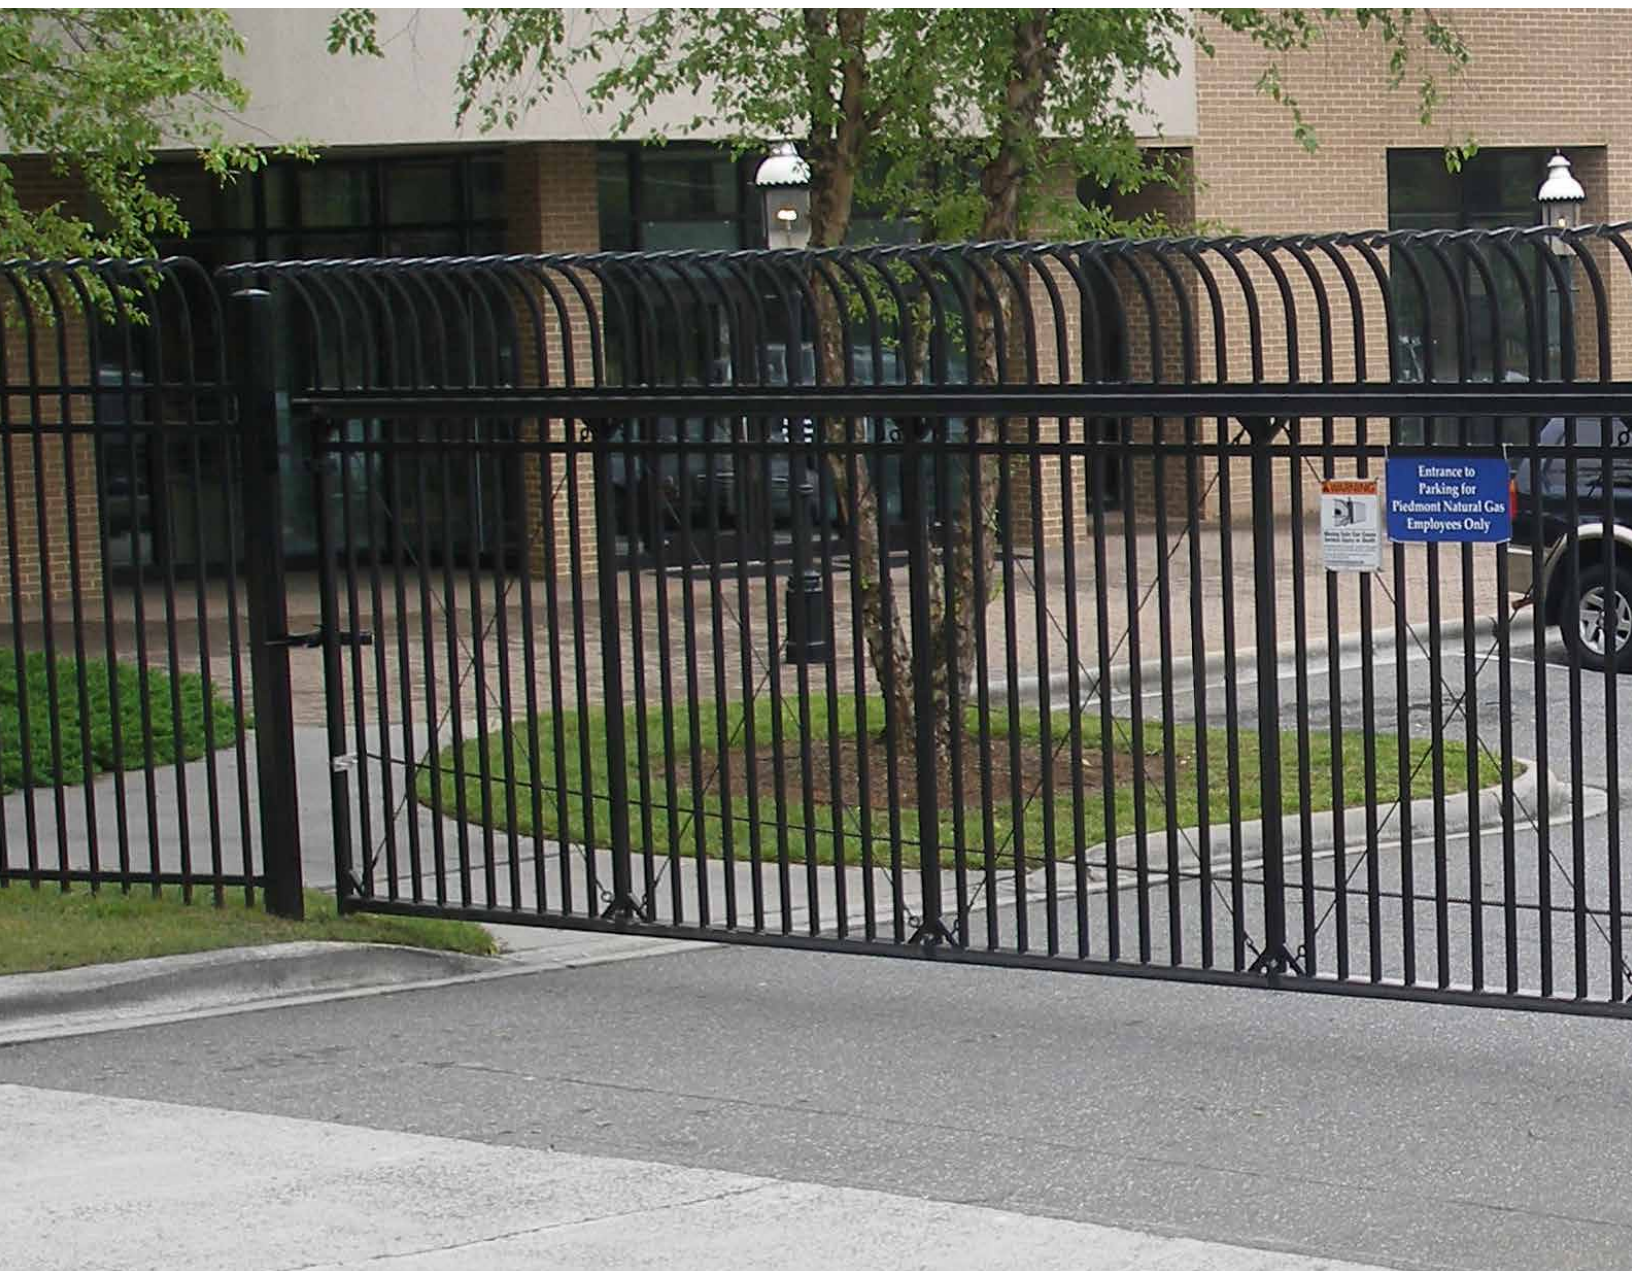

Iron World Manufacturing is a family owned and operated business established in 2006 in Howard County, Maryland. Today, Iron World Manufacturing has grown into an industry leader in manufacturing ornamental steel and aluminum fence systems and gates. Iron World is proud and grateful to have over 100 dedicated employees that take pride in manufacturing quality American made products.

BUILT TO UL 325 STANDARDS

Iron World's slide gates comply with the industry's highest safety demands and requirements, including UL 325 compliance.

VERSATILITY

Iron World manufactures some of the most versatile slide gates in the industry covering a wide variety of applications including but not limited to industrial zones, government and military facilities, commercial sites, schools, and airports. Moreover, color and ornamental options are also available along with our original galvanized chain link slide gates.

DURABILITY

Our slide gates are crafted to last a lifetime and are constructed out of high grade 6005-T5 aluminum alloy for maximum strength and durability. Our experienced gate team incorporates 1/4" galvanized aircraft cables throughout our slide gates to ensure stability and adjustment on the jobsite.

MAXIMUM SECURITY

Iron World's slide gate team takes tremendous pride in crafting high security slide gates that meet UL 325 standards. Each gate is carefully manufactured and inspected to meet our customer's specifications and requests. We place a special emphasis on providing our customers with high security options to ensure the safety of all parties involved in both the selection and installation process.

IN STOCK EXPRESS SHIP PROGRAM

Our teams in stock express program sets us apart from our competitors by allowing us to service our customers immediately for new installs and replacements. Our in-stock gates can be hung from the left or right side and still maintain a flawless counterbalance. These gates are ideal for high security applications and are in stock and ready to be shipped immediately.

Guardian Slide Gates

GOLDEN GATE

Iron World Manufacturing prides itself on producing the BEST slide gates in the industry. With our Golden Gate Series, you get the most up-to-date construction features backed by Iron World's quality reputation for craftsmanship, competitive pricing, short lead times and reasonable shipping. Slide Gates are available in aluminum chain link slider or ornamental powder coated slider. Features include a closed track system with lubricated eight bearing rollers to protect from the elements and guarantee smooth opening and closing.
