# MAVERICK™ SUPREME PLUS COMMERCIAL STEEL

The Maverick Supreme Plus is targeted for commercial applications and provides the beauty and security of iron raked panels constructed with a 14-gauge channel, and 3/4 inch steel pickets. Aluminum strips and steel fasteners are used to attach each individual picket to the rail allowing the section to rack to your job specifications. These strips and fasteners provide the strength of a welded product without the rusting that accompanies them. The following styles are available in Maverick Supreme Plus:

**Aberdeen**

**Barcelona**

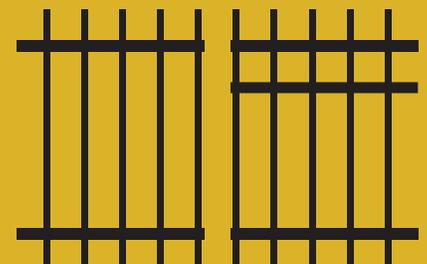

**Canterbury**

Two or Three Rails

Two or Three Rail  
Spear Top Pickets

Two or Three Rail  
Flat Top Pickets

- Pickets and rails joined with aluminum strips and stainless steel fasteners
- Pre-galvanized G60 steel
- Cleansed and phosphate coated for added protection
- Zinc rich primer with durable baked on 2.5-3mm black powder coat finish
- Not wet paint coated which can easily scratch
- Fully assembled and ready to install
- Available in black and custom colors
- Larger post sizes available
- Slide gates and custom entry gates available
